

GB-Sol
 Unit 2 Glan-Y-Llyn
 Ind. Est.
 Cardiff Road
 Taffs Well
 Wales, CF15 7JD

Tel: 02920 820 910
 Fax: 02920 820 911

GBSOL solar modules are designed and manufactured in the UK using components from Europe's leading manufacturers. By using crystalline solar cells we are able to achieve module efficiencies to equal those of any of the worlds other manufacturers. The modules are made to IEC 61215 & safety class II.

GBS Range Traditional solar laminates of glass and genuine Tedlar(tm) offer exceptional performance and weather protection.

- Each Module Has:**
- 5 Year Limited Warranty
 - 25 Year- 80% Output Guarantee
 - Replaceable Bypass Diodes
 - Lightweight Aluminium Frame

- Options:**
- Black/coloured Frame and Backing
 - Transparent Backing
 - Your Company Logo Inside The Module
 - Custom Cable Lengths & Connectors

Please Contact Us For Pricing, Availability and Lead Times.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-------------------|
| GBS 185P | 185 | Poly-Crystalline |
| GBS 190M | 190 | Mono-Crystalline |

Module Dimensions: 991mm x 1327mm x 42mm

Panel Weight: 16.8KG

Suitable For: Grid Connection & High Voltage Serial Stringing.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-------------------|
| GBS 135P | 135 | Poly-Crystalline |
| GBS 140M | 140 | Mono-Crystalline |

Module Dimensions: 673mm x 1485mm x 42mm

Panel Weight: 12.7KG

Suitable For: 12 Volt Battery Charging, Grid Connection & High Voltage Serial Stringing.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-------------------|
| GBS 110P | 110 | Poly-Crystalline |
| GBS 110M | 110 | Mono-Crystalline |
| GBS 120M | 120 | Mono-Crystalline |
| GBS 125M | 125 | Mono-Crystalline |

Module Dimensions: 655mm x 1305mm x 42mm

Panel Weight: 11.7KG

Suitable For: Grid Connection & High Voltage Serial Stringing.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-------------------|
| GBS 75M | 75 | Mono-Crystalline |
| GBS 80P | 80 | Poly-Crystalline |
| GBS 80M | 80 | Mono-Crystalline |
| GBS 85P | 85 | Poly-Crystalline |
| GBS 85M | 85 | Mono-Crystalline |

Module Dimensions: 1200mm x 535mm x 42mm

Panel Weight: 6.5KG

Suitable For: 12 Volt battery charging, Grid Connection & High Voltage Serial Stringing.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-------------------|
| GBS 32M | 32 | Mono-Crystalline |
| GBS 35M | 35 | Mono-Crystalline |

Module Dimensions: 780mm x 360mm x 42mm

Panel Weight: 2.5 KG

Suitable For: 12 Volt battery charging, Grid Connection & High Voltage Serial Stringing.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-------------------|
| GBS 70M | 70 | Mono-Crystalline |
| GBS 65M | 65 | Mono-Crystalline |

Module Dimensions: 655mm x 765mm

Panel Weight: 4.1KG

Suitable For: 12 Volt battery charging, Grid Connection & High Voltage Serial Stringing.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-------------------|
| GBS18M | 18 | Mono-Crystalline |
| GBS20M | 20 | Mono-Crystalline |

Module Dimensions: 635mm x 285mm x 42mm

Panel Weight: 2.5kg

Suitable For: 12 Volt battery charging, Grid Connection & High Voltage Serial Stringing.

| Module Name: | Power (Watts): | Cell Type: |
|---------------------|-----------------------|-----------------------------------|
| Flexi 70 N | 70 | Mono-Crystalline- Natural Finnish |
| Flexi 70 B | 70 | Mono-Crystalline- Black Finnish |

Module Dimensions: 700mm x 800mm x 14mm

Panel Weight: 3KG

Suitable For: 12 & 24 Volt battery charging

| Module Name: | Power (Watts): | Cell Type: |
|--|-----------------------|-----------------------------------|
| Flexi 35 N | 35 | Mono-Crystalline- Natural Finnish |
| Flexi 35 B | 35 | Mono-Crystalline- Black Finnish |
| Module Dimensions: 400mm x 800mm x 14mm | | |
| Panel Weight: 1.8KG | | |
| Suitable For: 12 & 24 Volt battery charging | | |

The GBS range is usually available from stock in 2-3 days.
 Large orders and customised modules typically take 2-3 weeks to manufacture.

Bespoke Modules:

We produce modules from 1 Watt to 125 Watts, custom sizes and voltages
 Pricing and lead times are very dependent on the design so please contact us
 to discuss your requirements.
